**Sports for All** Kristine Setting Clark, 2019-08-30 The Department of Sports and Athletics should be committed to providing a Sports For All Intramural Sports Program. The mission of Sports For All is to create added experiences for the school's growth and development by encouraging involvement in the present, which will enrich and challenge the future. Competitive and recreational athletics are an integral part of the educational process and experience. Students should have the opportunity to participate and compete as appropriate to their interest and skill. Intramurals provide a co-curricular value by contributing to overall community satisfaction, involvement and learning within a diverse setting, improving student recruitment and retention by adding to the quality of community life and creating a venue for social interaction, integration and leadership activities, which positively affect spirit, mind, and body. As physical educators, we value the lessons that have long been taught by athletic participation: the pursuit of excellence through personal development and teamwork; ethical and responsible behavior on the field and off; adherence to the spirit of rules as well as to their letter; leadership and strength of

character; and sportsmanship - including respect for one's opponents, acceptance of victory with humility, and acknowledgement of defeat with grace. In teaching these lessons to students, the Sports For All program will instill habits that will lead students to better and healthier lives. While winning is not an end in itself, we believe that the efforts by our intramural and intermural teams to be their best will lead them to success. Athletic participation is a way for students to grow and learn and to use and develop their personal, physical and intellectual skills. The entire Physical Education and Athletic Departments, including coaches, medical and training staff, facilities and equipment personnel, and administrators, would work to achieve these goals, honor the values of the school and support the principles of the Sports For All intramural program. Physical educators believe that a comprehensive athletic program provides physical, social and emotional benefits that are vitally important in a highly competitive educational environment. Competition, in itself, is a dynamic that plays a vital role in life and is imperative to success. Since the number of students who can compete at the athletic team level is limited, each school should develop an extensive intramural sports program. Let Sports For All be that program!

*Shifting Gears* Eddie Thramer,2011-12-06 September 11- A day that in some way has either directly or indirectly changed everyone in Americas (if not the worlds) way of life. Whether it is a persons sense of security, travel plans, outlook on life, or the way they view their family, 9/11, as they call it, changed us all, including me. But my 9/11 didnt happen in 2001, it happened exactly two years earlier in 1999. With September 11 being my birthday, I received a unique present on that day that changed my life. It was then that I first realized that life wasnt the fairytale world that I thought it was. As I saw my world crumble down, I had no choice but to turn a negative into a positive. Remembering the advice from a person whom I had never met telling me to believe in myself, never give up, and to never take the easy way out, I knew that I could battle through anything and win in the long run. Little did I know, that present was the opening to my future and to my lifes goal that I was out to achieve.

**College Sports Inc.** Frank P. Jozsa Jr., 2012-10-24 For several decades in America, athletic programs in colleges and universities received financial support and resources primarily from their respective schools and such sources as alumni and the National Collegiate Athletic Association (NCAA). More recently, however, college coaches assigned to athletic departments and the presidents and marketing or public relations officials of schools organize, initiate, and participate in fund-raising campaigns and thus obtain a portion of revenue for their sports programs from local, regional and national businesses, and from other private donors, groups, and organizations. Because of this inflow of assets and financial capital, intercollegiate athletic budgets and types of sports expanded and in turn, these programs became increasingly important,

popular, and reputable as revenue and cost centers within American schools of higher education.

Historical Dictionary of Baseball Lyle Spatz, 2012-12-21 Dating back to 1869 as an organized professional sport, the game of baseball is not only the oldest professional sport in North America, but also symbolizes much more. Walt Whitman described it as “our game, the American game,” and George Will compared calling baseball “just a game” to the Grand Canyon being “just a hole.” Countless others have called baseball “the most elegant game,” and to those who have played it, it’s life. The Historical Dictionary of Baseball is primarily devoted to the major leagues it also includes entries on the minor leagues, the Negro Leagues, women’s baseball, baseball in various other countries, and other non-major league related topics. It traces baseball, in general, and these topics individually, from their beginnings up to the present. This is done through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 900 cross-referenced entries on the roles of the players on the field—batters, pitchers, fielders—as well as non-playing personnel—general managers, managers, coaches, and umpires. There are also entries for individual teams and leagues, stadiums and ballparks, the role of the draft and reserve clause, and baseball’s rules, and statistical categories. This book is an excellent access point for students, researchers, and anyone wanting to know more about the sport of baseball.
