Integrating Environmental Print Across the Curriculum, PreK-3 Lynn Kirkland, Jerry Aldridge, Patricia Kuby, 2006-12-28
From billboards to lunch boxes, environmental print offers a powerful springboard to literacy! While learning to read and write takes time, there are effective ways to tap into what children already know and to use that information to jump start the literacy process. One way is through environmental print (EP), the print that surrounds children in their daily lives. Integrating Environmental Print Across the Curriculum, PreK-3, provides a wealth of activities that build literacy skills during time devoted to language arts, math, science, social studies, art, and dramatic play. Highlighting research from the National Reading Panel, the authors demonstrate that by activating prior knowledge and creating opportunities for authentic learning, EP is an effective tool in developing the early literacy skills of all children, including English language learners and those at risk for, or identified with, special needs. Each activity specifies grade range, materials, and instructions to help you: Meet the goals of Early Reading First and Reading First Assess children's ability levels in performing the activity Strengthen concepts with related literature and songs Communicate ways that parents can use EP with their children This friendly, research-based book is designed to assist you in creating an environmental print program that promotes the development of strong literacy skills for every child!

Love, Care and Share (LARGE PRINT Edition) Tom Herstad, 2018-08-07 Large Print Edition "Your writing is enlightening and beautiful. I especially enjoyed the rays of sunshine you captured in the fun family memories, among the poignant stories you have shared so openly. Thank you from the bottom of my heart." Yvonne Finn, Your Relationship Whisperer "I sat with my father during his last days on earth, and just picking up your book and reading your inspiring, uplifting writing helped me with the journey we both had to go through." Austin Freedman, Psychotherapist, Life Coach From the Publishers: Do you want to make better decisions and improve your life? Do you want to grow closer with your children, gain a stronger and more loving relationship with your spouse or other loved ones? Do you feel there is more for you to explore in this life and you don't know where or how to start? You will find many solutions in this book. This is the SECOND EDITION with even more photographs and additional stories. It is a quick read, and has already helped many people who have read it. This treasure of a book will change your perspective on life, help you gain clarity and bring more joy into it. Tom Herstad shares his deepest feelings about his childhood, adolescence, his family, and his lessons learned. With astute humor

Tom humbly and lovingly shares how much his wonderful spiritual mother, Margie, has impacted him and his life. His uplifting, warm and easy-to-read writing style invites you to look deeper inside yourself, and at the world and people around you. From the Back Cover: Despite her childhood hardships, then losing the love of her life and becoming a young widow with four children, the beautiful, vivacious Margie dedicated her life to loving, caring and sharing her wisdom. Margie opened her heart and her home to help those who needed her loving guidance. With unswerving devotion to her family and friends, she transformed lives and inspired joy and hope in everyone through her generosity, sense of fun, and unfailing faith. The many recollections within this uplifting tribute to a unique, sweet soul, portray Margie's loving legacy. Love, Care and Share will inspire you to find what is most important to you. You will discover your own truth, and how everyone, everywhere, every day has opportunities to make a positive difference. Margie always said, "We are the hands and fingers of God, but we have to use them." Praise for LOVE, CARE AND SHARE I started reading Love, Care and Share just after 7pm and it's now 9:20pm. I was deeply drawn into it and it was like being with Margie again, only through your eyes and words. For these past few hours she "Lived" again. Thank you for that. The raw emotion expressed comes through vividly, about a Son's Love for his Mother bringing her life into meaningful events and wanting her to be remembered as someone many of us Loved. I have often said to others that we go through life never really seeing others and ourselves but for our outer shells/bodies, instead of seeing the real entity that we are; which is the Soul. Margie saw the Soul and therefore was able to love as she did. - Chris Price I can't tell you how much I enjoyed reading about your Mom in Love, Care and Share. It was amazing and the stories just made me sorry I didn't know her myself. She must have had the biggest, kindest heart. Her willingness to give her time and her home and anything else which was needed made her very special indeed. You must miss her terribly. Your writing was lovely and by the end, I felt as though I knew all of you in a way I hadn't before. Thank you for sharing it with me my friend. - Love, Sherry

The Man Behind the Cardboard Sign Viola Dougherty, 2012-06 Have you really looked at the faces of the men and women standing on street corners, with their signs held out in front of them, asking for help? Did you wonder what could bring them to such an end - homeless and hungry? Many are in need of food or shelter - or fighting the scourge of alcohol and drugs. There is a story behind each and every person. This book offers the readers an in-depth look at one of them. The struggles Curtis faced all of his life are the same ones faced by so many others. *The Man Behind the Cardboard Sign* takes you on an 80 year journey through sexual and mental child abuse, dysfunctional families, and remorse. It also has great love, and true-life miracles that make the journey so worthwhile.

Day for Night Frederick Reiken, 2010-06-01 If you look hard enough into the history of anything, you will discover things that seem to be connected but are not. So claims a character in Frederick Reiken's wonderful, surprising novel, which seems in fact to be determined to prove just the opposite. How else to explain the threads that link a middle-aged woman on

vacation in Florida with a rock and roll singer visiting her comatose brother in Utah, where he's been transported after a motorcycle injury in Israel, where he works with a man whose long-lost mother, in a retirement community in New Jersey, recognizes him in a televised report about an Israeli-Palestinian skirmish? And that's not the half of it. In *Day For Night*, critically acclaimed writer Frederick Reiken spins an unlikely and yet utterly convincing story about people lost and found. They are all refugees from their own lives or history's cruelties, and yet they wind up linked to each other in compelling and unpredictable ways that will keep you guessing until the very end.

The Homemade Pantry Alana Chernila,2012-04-03 "This is my kitchen. Come on in, but be prepared—it might not be quite what you expect. There is flour on the counter, oats that overflowed onto the floor, chocolate-encrusted spoons in the sink. There is Joey, the husband, exhausted by the thirty-five preschoolers who were hanging on him all day, and he is stuffing granola into his mouth to ease his five o'clock starvation. There are two little girls trying to show me cartwheels in that miniscule space between the refrigerator and the counter where I really need to be." In her debut cookbook, Alana Chernila inspires you to step inside your kitchen, take a look around, and change the way you relate to food. The Homemade Pantry was born of a tight budget, Alana's love for sharing recipes with her farmers' market customers, and a desire to enjoy a happy cooking and eating life with her young family. On a mission to kick their packaged-food habit, she learned that with a little determination, anything she could buy at the store could be made in her kitchen, and her homemade versions were more satisfying, easier to make than she expected, and tastier. Here are her very approachable recipes for 101 everyday

staples, organized by supermarket aisle—from crackers to cheese, pesto to sauerkraut, and mayonnaise to toaster pastries. The Homemade Pantry is a celebration of food made by hand—warm mozzarella that is stretched, thick lasagna noodles rolled from flour and egg, fresh tomato sauce that bubbles on the stove. Whether you are trying a recipe for butter, potato chips, spice mixes, or ketchup, you will discover the magic and thrill that comes with the homemade pantry. Alana captures the humor and messiness of everyday family life, too. A true friend to the home cook, she shares her “tense moments” to help you get through your own. With stories offering patient, humble advice, tips for storing the homemade foods, and rich four-color photography throughout, The Homemade Pantry will quickly become the go-to source for how to make delicious staples in your home kitchen.

Teleworking Mike Johnson, 2013-10-11 From the people who work exclusively from home to the 'portable' manager with no fixed site, the need to communicate is paramount. Mike Johnson's candid appraisal of teleworking, or telecommuting as it is also known, looks at the key benefits: for the individual it provides the opportunity to work from home; for the company it provides major savings on costs. The down side is the lack of human contact and the anxiety of employees who work away from the centre of things. The ...in brief books provide a critical 'snapshot' of the major management fashions and fads influencing business strategy. They cut through the consultants' jargon and steer a practical, common sense course through the theory and hype. They provide managers with a balanced view based on evidence rather than missionary zeal, so that they can be better informed.

Not White/Straight/Male/Healthy Enough Michael A. Moreno, Michele Shaul, 2018-12-21 Every fall, a new crop of college freshmen arrives on campuses eager to acquire skills that will prepare them for the workplace, to join organizations that support causes they care about, and to establish meaningful relationships with their peers. Less visible are the new professors who aspire to make a difference in students' lives, make ground-breaking discoveries, publish scholarship that influences their fields and forge lifelong collaborations with colleagues. Most importantly, these students and faculty seek acceptance beyond admittance and employment. While this desire for acceptance is universal, there is no guarantee of achieving it. For some, simply settling in often is not possible. This anthology discloses the experiences of members of the academic community who know this fight all too well. By taking a deep dive into the minds and hearts of students and faculty members who identify as “other” and by disclosing their awkward, funny and painful experiences, this book aims to caution newcomers to the academy, to equip teachers to identify and discuss inequity in the classroom, to call out perpetrators and perpetuators of injustice, and to provoke change, if not in the academic community as a whole then in each individual reader. Recognizing that the case for doing and being better cannot be made with statistics alone, this book uses storytelling to bring to light the impact of discrimination on a very personal level. The writers in this collection put their stories out there to remind readers that others like them suffer in silence.

Inventing the Movies Scott Kirsner,2008 From Edison to the iPod, from the Warner Brothers to George Lucas, the story of how the movies became America's favorite form of escapist entertainment - and retained their hold on our imaginations for more than a century - is a story of innovators prevailing again and again over skeptics who prefer to preserve the status quo. Inventing the Movies unspools the never-before-told story of the innovators who shaped Hollywood: how a chance meeting at the Saratoga Race Track led to the end of black-and-white movies ... how Bing Crosby brought you the VCR ... how Walt Disney tamed television ... how a shotgun blast signaled the end of hand-made models and the beginning of digital special effects ... and how even the almighty Morgan Freeman had trouble persuading theater-owners that the Internet wasn't their mortal enemy. Inventing the Movies is an important read not just for fans of Hollywood's history, but for innovators trying to make change happen in any industry.

A Guide to the New Ruins of Great Britain Owen Hatherley,2011-07-01 Back in 1997, New Labour came to power amid much talk of regenerating the inner cities left to rot under successive Conservative governments. Over the next decade, British cities became the laboratories of the new enterprise economy: glowing monuments to finance, property speculation, and the service industry—until the crash. In *A Guide to the New Ruins of Great Britain*, Owen Hatherley sets out to explore the wreckage—the buildings that epitomized an age of greed and aspiration. From Greenwich to Glasgow, Milton Keynes to Manchester, Hatherley maps the derelict Britain of the 2010s: from riverside apartment complexes, art galleries and amorphous interactive “centers,” to shopping malls, call centers and factories turned into expensive lofts. In doing so, he provides a mordant commentary on the urban environment in which we live, work and consume. Scathing, forensic, bleakly humorous, *A Guide to the New Ruins of Great Britain* is a coruscating autopsy of a get-rich-quick, aspirational politics, a brilliant, architectural “state we’re in.”
